10. FYI
12. The reason is a need in the DOO for a combined IA + Information Specialist. Basically a terminal operator at the professional (?) level.

MEMO TO: DD/PA&E

Pete,

In a recent conversation, you expressed interest in statistics on conversions to professional. Ray and IAB have collected the attached statistics.

Note especially the steady rise in "D" conversions. "E" picks up EP conversions in FY 81 while "M" has a corresponding reduction.

Overall, there was not the major increase in clerical conversions that I anticipated. The rise last year in "M" technical conversions was significant and may relate to Commo promotions to professional positions.

Stan
